**Meeting of
Town Fathers**

The first meeting of the year for the Blairmore town councilors was held on Monday night last, when the attendance was so large that Mike Rossi was obliged to sit on a "tumbler."

The following members of the new council were present: A. McLeod, D. C. Drain, F. E. Hinds, D. A. Sinclair, and W. A. Beebe.

The minutes of the last meeting held in December were read and adopted, after which a number of correspondence were received.

The latter included a letter from the Department of Municipal Affairs regarding the proposal of a crossing over the railway at Eighth and Twelfth Avenues. The letter stated that an order had been given for the opening up of the road allowance as a crossing at Twelfth Avenue.

A letter was also received from the C. P. R. suggesting the opening of a crossing at Ninth Ave. instead of Eighth or Twelfth Avenues. Such recommendation was received and considered as most satisfactory for the present needs, being just east of the iron bridge over Lyon Creek and would be very much more convenient for people living in the Pelletier addition than the route at present in use, as well as affording easier access to the Brewery locality.

Reports were received from the health officer, Dr. A. H. Baker, and from the chief of police, of work done in their respective departments during the past year.

The following accounts were read and ordered paid, subject to verification by the different committees: H. G. Bigelow \$10.25; West Canadian Collieries \$3.50; Crows' Nest Flour & Feed Co. W. A. Malcolm \$24.40; S. Ennis \$15.40; R. Smallwood \$50.50; E. Morino \$151.50; Macleod & Gray \$50.00; L. Badot \$3.00; Royal Bank of Canada \$3.00; Dominion Pipe Co. \$284.14; Dawson & Green \$49.15; Telephone \$1.40; W. J. Bartlett \$16.75; W. J. Budd \$47.50; Light \$55.00; R. M. Brisco \$13.75; Dr. A. H. Baker \$85.50; J. R. Irwin \$100.00; W. L. Shera \$105.00; W. A. Chester \$50.00; Tailor \$3.50.

Sinclair-Hinds—That By Law No. 17, to provide for the borrowing from the Union Bank of Canada the sum of \$7,500 to meet current accounts until such time as taxes sufficient to cover such amount were collected, was read a third time.

McLeod-Drain—That secretary-treasurer advise H. C. Moore that his services as temporary solicitor would no longer be required. Carried.

Beebe-Sinclair—That secretary-treasurer advise J. R. Irwin that his services as chief of police for the town were no longer required. Vote cast two for, two against, and mayor recorded against the motion.

Matter of engaging a town solicitor was laid over till next meeting.

A draft of committees was read and received. The following are the committees for 1913:

Works and Property

W. A. Beebe, A. McLeod, R. M. Brisco.

Waterworks

R. M. Brisco, F. E. Hinds, D. C. Drain.

License and Police

F. E. Hinds, D. A. Sinclair, W. A. Beebe.

Health and Relief

A. McLeod, W. A. Beebe, R. M. Brisco.

Fire and Light

D. C. Drain, F. E. Hinds, D. A. Sinclair.

Finance

D. A. Sinclair, D. C. Drain, A. McLeod.

Sinclair-Drain—That salary of secretary-treasurer Shera be increased to \$100 per month. Carried.

Meeting closed about ten minutes before the time set by the provincial government for the closing of the bars.

Correct Hockey Schedule

Owing to a slight error occurring in the league schedule published by us last week, we reproduce it in correct form as below:

21—Coleman vs. Blairmore

24—Frank vs. Coleman

Guard Against Contagion

At Regina on Thursday, December 12th, W. H. Underwood, of Milestone, was fined \$100.00 and costs on two separate charges under the Animal Contagious Diseases Act. Mr. Underwood had imported a number of horses from the United States which were found to be affected with a contagious disease known as Dourine. They were immediately placed in quarantine. A certain number were destroyed, and the rest placed under strict quarantine in order that the Canadian horse breeders might be protected from this importation of disease from the United States.

Evidence was obtained that one of the suspected stallions was removed from the quarantined premises and also that the same was used for breeding purposes. W. M. Martin acted for the accused and entered a plea of guilty. C. E. Wood prosecuted for the Department of agriculture at Ottawa.

The work of dealing with Dourine is of such nature that in the interests of horse breeders it is highly desirable that prompt and effective action be taken in cases where the quarantine requirements of the Canadian Government are set at naught.

The Blairmore hockey team play a return exhibition game at Fernie on Monday next.

**Macdonald is
Known in East**

The following past history of James Macdonald, who was recently arrested and now awaits trial at Macleod for mail robbery, is given out by the Herald, of North Sydney:

"James Macdonald who at one time was employed in the defunct Enterprise office, and who got away with some \$3,000 from the post office here about four years ago, for which he was convicted and sentenced to a term of five years in Dorchester penitentiary, eighteen months of which he served when he was allowed his liberty, was arrested last week in Alberta on a similar charge. After regaining his liberty Macdonald returned to this town, and later went to Sydney, securing employment on the Record and then went to Glace Bay, securing a job on a defunct newspaper. After the latter had ceased to be, Macdonald went West, where he got himself again in trouble.

At the time James Macdonald committed the theft in the post office here, he was not an employee of the office, and never was.

However, he was in the habit of loitering about the office, and it was while thus engaged one day, he saw one of the clerks place a package of notes sent by the Union bank to be forwarded to the head office in Halifax, in one of the mail bags. When the clerks were engaged in their work, Macdonald secured the bag, and left the building. Under cover of darkness he proceeded up Queen street, and taking the money out of the bag, he cut up the latter and threw it over the bank into the waters of the harbor. The next day the loss was discovered, but no suspicion was placed on Macdonald until a couple of days afterwards when he left here to attend the exhibition in Charlottetown. On the way Macdonald showed rolls of bills to several of his friends from this town, and while in the Island city he cut a great dash, buying rings and jewelry for several young ladies of the city, whose acquaintance he had but formed.

Later he went to his old home a short distance outside of Summerside, where his stepmother resided. It was while asleep in the home of his childhood that the officers found him, and under his pillow was found the major part of the stolen money, besides a revolver he had purchased. Upon his return here Macdonald confessed all, and was given a four years sentence, after returning to ex-posit-master Musgrave a couple of diamond rings and other stuff he purchased with the stolen money."

The Day After

Bring me a dry Martini, waiter.

I chase the something that is new.

I attended the banquet last night.

And I haven't got over it yet.

Throw me a pleasant look, waiter.

Smile on me, pray don't frown.

And pour some gin on my breakfast.

So I can keep it down.

I here they've discovered the pole, waiter.

I wish I had it, here now.

They can't come any too cold for me.

To put on my aching brow.

Many a schooner were wrecked last night.

And the waves can mountains high.

Personally, I was soaked to the gills.

But today I am awfully dry.

It was a terrible night at sea, waiter.

And many are a-crying, I doth say.

But as near as I can remember.

I never missed a drink.

The one in blue got my spark, waiter.

The side kicker got my neck.

I don't want to know what time it is.

Please lead me down to the dock.

Lead me down to the dock, waiter.

For a watery grave I pine.

The place for a man who is picked

Is over his head in brine.

Tell Doc Fulmer at the Fairmont

I died as a hero should;

Up to the neck in cold, cold, cold.

Guaranteed drawn from the wood.

I'd like to leave you a gift, waiter.

Just to remember me by.

And just to show you that I am tonight

You can have my piece of pie.

And after I sink in the deep, waiter.

You'll do me one favor I hope;

Tell them, if I blow up bubbles.

That it wasn't from eating soap.

—Es.

Moving picture theatres in Saskatchewan are being limited to one for every 5,000 of the population.

—Mrs. A. R. Taylor, of Crider, Mo.,

had been troubled with sick headache for about five years, when she began taking Chamberlain's Tablets.

She has taken two bottles of them and they cured her. Sick headache is caused by a disordered stomach for which these tablets are especially intended. Try them, get well and stay well. Sold by all dealers.

Cookery Points

Damon Cake.

Cream three-quarters of a cupful of butter with one cupful and a half of brown sugar. Add two eggs and a cupful of sour cream in which half a teaspoonful of soda has been dissolved. Beat three cupfuls of flour with a teaspoonful of baking powder, two level teaspoonfuls of cinnamon, and a teaspoonful of cloves and half a teaspoonful of grated nutmeg. Stir the other mixture into these dry ingredients, and when a smooth batter has been formed mix with a paste previously prepared by beating a square of chocolate and then mixing it with a quarter of a cupful of light brown sugar and a quarter of a cupful of water. Cook this mixture till it is smooth before adding it to the batter. Just before putting the batter into the pans add a cupful of chopped nuts and fruit—apples, raisins, citron and so forth, according to the richness desired. This cake may be used as a layer cake or in a shallow loaf form. It does not need a thick frosting, the batter being rich. Creamy sour milk may be used instead of sour cream, but it is wise to add a little extra butter. The almonds should, of course, be blanched and cut in thin strips and the citron in thin shavings.

Mack Game.

Cut some slices of breakfast into pieces half an inch thick and square. Lay a piece of raw bacon on each and dredge well with flour. Roll up the bread and skewer it in position. Melt some dripping in a saucepan, put in the meat and brown quickly, then add a finely chopped onion, half a teaspoonful of capers, a wineglassful of vinegar and the same quantity of stock. Cover and stew all together very slowly till tender.

Place the meat on a hot dish. Strain the gravy, thicken it with browned flour. Season with pepper and add a tablespoonful of red currant jelly. Pour the gravy over and around the meat and garnish with apples of toast and pieces of red currant jelly.

Angel's Food Cake.

Take the whites of two eggs, one cupful of flour, one and a half cupfuls of sugar and one teaspoonful of vanilla extract. Sift the sugar four times, with a teaspoonful of cream of tartar added also a pinch of salt. Beat the eggs until light and dry and add the sugar lightly, then the flour and vanilla. The secret of success is in the mixing and beating. Put together in the order given. Do not use a spoon or beat hard. Beat the eggs with a wire egg beater and use the beater to mix the cake. Bake in magnified angel's cake pan for forty minutes to one hour. Let the cake cool in an inverted position before removing from the pan. The oven must be a moderate one.

Carpets of Apples.

Large and rather flat apples are the best for this purpose. They should be pared and cored and cut into equal parts. Make a syrup with half a pound of lump sugar and a wineglassful of sherry and another of water. Bring it to boiling point.

Drop the apples into this and cook them till perfectly tender, but do not let them break. Lift them out on a plate as soon as done.

When all the apples are cooked boil the syrup a little longer to reduce it and deepen the color by the addition of a few drops of cochineal. Then pour over the apples and serve to a glass dish.

French Cucumber Salad.

Take four medium sized fresh cucumbers, half a cupful of sweet cream, a quarter of a cupful of vinegar and two tablespoonfuls of salt.

Peel the cucumbers and slice them lengthwise until the seeds are reached. Place a layer of cucumber slices in a dish, then sprinkle with a layer of salt. Repeat until all sliced cucumbers are used. Allow to stand several hours on the table when ready to use remove cucumbers from the liquid, spread on towel and wipe dry. Place in a bowl and add, alternately, cream and vinegar. Serve on bed of lettuce or cream.

Curry Soup.

Peel and slice three apples and three onions. The onions should be sliced from the top to the bottom. Place them in a saucepan with two ounces of dripping and a tablespoonful of butter and fry gently without discoloring for about half an hour.

Sift occasionally. Pour in two quarts of plain or fish stock and cook for half an hour. Add enough flour to thicken the soup and boil for three minutes. Season with pepper, salt and a dash of lemon juice and serve with boiled rice.

Braised Sausage.

Wash and boil a couple of fair sized beans until they are tender, then remove the skins and cut them in slices. Dissolve half an ounce of butter, mix with it a dessertspoonful of flour and stir in a large teaspoonful of stock or water, adding a little vinegar and pepper and salt.

Roll first, then lay in the slices and boil, cover the steppan closely and stew gently for half an hour.

Four carefully into a hot dish and serve at once.

TRAVELING SUITS.

Chinese Shantung a Satisfactory Material to Use.

It is not as easy to choose a costume for traveling in summer as in winter. Even with the freshest of linen at the start one is apt to look soiled and dusty in a short while, and serves as too warm unless one is going instantly to a cool climate. Tullefats are not especially serviceable, and satin is hot, so one must choose with thought and after much looking around.

So far the genuine Chinese weave of shantung has proved most satisfactory for traveling. Its indefinite tan tones do not show soil easily, and those who have tried it out on trips of long duration have found that it was worth the money they put into it.

A slim, short skirt of this, with one of the new sack coats that have a slight fullness at the back of the waist line held under a short belt, is a good model to select. The skirt should have a habit back or one side plait, but it should avoid the wide box plait or the loose panel. It is a good thing to remember just here that these additions should not be put on the back of a skirt when it is made of a fabric that easily wrinkles.

The skirt which buttons down the front should be high waisted, and the four inch hem should be stitched with one row of self colored silk at the top. The coat, in addition to its negligible back, should be open to the waist line, have wide revers and collar and long sleeves that are finished with two inch linings cuffs held at the back with link buttons.

A JAPANESE ROOM.

Charming Ways of Using Souvenirs From Mikado's Land.

A collector of Japanese prints and embroideries who found that she had amassed several very beautiful specimens of the mikado's land asked an expert how she should furnish a room in which they were to play a prominent part.

"The room is practically furnished already," said the authority interrogated. "In fact, the fewer pieces of furniture you have in it the better you will be pleased with the result."

"Have black walls. What would be more beautiful as a background for the glorious splashes of blue water, the radiant sunsets and the prints crowded with figures in monotone which you have here?"

"Screens you must have in black wood frames, for some of your embroideries will make exquisite panels, and other pieces can be let into the wall, so that you may sit near them and admire the perfection of design and coloring you have secured."

"You would have a black carpet so that no alien color scheme creep into your room, and, besides that, your yourself will radiate color, for you will have some of the silk you have brought home made into gowns and wear them always in this particular apartment. Any other type of toilet would look foolish in it."

"Let there be unobtrusive chairs, divan, tables in, and when tea is served use the Japanese china you have among your treasures."

Cleaning Windows.

For cleaning windows use ammonia in the proportion of one tablespoonful to one gallon of water or whitening mixed with cold water to a paste about as thick as cream. But the work can be performed by using clean water and two change linens, one for washing the glass and the other for polishing. The latter should be kept dry and soft.

See that the wash linens are quite clean and do not make the glass so wet that the water drips from it. Have plenty of clean water and change it frequently. Dip the channels in this and rub the pane taking care that the corners are not forgotten. Wring the cloth tightly and go over the surface of the glass a second time. Then polish with the other wash linen.

Summer Belongings of Cottage.

A cologne-scented basket, a filling basket and a writing paper box, all made of pasteboard, covered with cool green and white crelone, are pictured here.

They offer an agreeable change from heavier brass and wood articles used during the winter season.

A Dainty Collar.

To wear with colored linen dresses a collar collar of sheerest white is most effective.

After cutting a half yard of material. After cutting the collar out finish the edges with an inch wide frill of finely pleated net.

Cuffs to suit may be made with rounded or square corners and edged with the pleated net.

If a touch of color is desired a row of featherstitching where the net is joined to the collar supplies it.

Flavored With Ginger.

A delicious white cake has the layers spread between with whipped cream flavored with Canton ginger cut into thin shavings, the being being flavored in the same way. A little of the sugar in the ginger jar may be used in the preparation of foods desired. Surely this privilege should be allowed in hot weather.

Three Rules to Follow.

In general there are three rules the housekeeper may use in changing her menus from winter to summer.

First—Make the diet to a larger extent vegetarian. Reduce the amount of meat.

Second—Do less cooking. Substitute green uncooked vegetables and fresh fruits for cooked meats. Serve fruits and cold desserts more.

Third—Make the diet more simple. This can be done without losing any of the pleasure of good things to eat, because there will be less work in the preparation of foods selected. Surely this privilege should be allowed in hot weather.

CAMP COMFORTS.

Life in the Open Shows of its Hardships.

Camping as a summer recreation has grown rapidly in popularity during the last few years and promises to enjoy greater favor this season than ever before. The reason is not far to seek. The material difficulties of camp life are being steadily eliminated, and life in the open has been shorn of most of its hardships.

Among the new devices for camp cookery are small aluminum bakers, casseroles and frying pans with handles to be removed for packing. Stoveless cookers are made especially for campers and are particularly useful when all day trips for fishing and hunting form part of the program, for on their return the hunters find a hot dinner ready for them.

Nests of cooking dishes are a trifle expensive, but well worth the outlay, as they can be packed in a minimum of space. Vacuum bottles are now much less expensive than they used to be and are invaluable to the camper. Water pails come in collapsible canvas, and of course there are plates and cups of paper, so inexpensive that they can be thrown away after using.

One camping party has provided itself with paper towels at a cost of 50 cents for 150 and estimated that they will save some twenty dollars in laundry work. Books of soap leaves are another suggestion.

In the matter of food for the camp inventive minds have been equally busy. There is a certain fascination about making coffee over a campfire, but the novelty soon wears off, and it is most convenient to be able to have a cup of coffee with only the trouble of boiling the water, powdered coffee doing the rest. A small round tin of the powder costs only 25 cents and will serve about thirty persons. Most campers try to arrange to get fresh milk from a nearby farm, but even if this supplied it is well to have condensed milk in reserve.

Hunters and fishermen along the shores of "artesian" a fine powder from which a tempting soup can be made merely by adding water. It can be bought in all stores that handle sporting goods and probably also in large grocery stores.

Mackinaw The Thing.

The bright green cloth Norfolk coat, called popularly the mackinaw, is the snappy summer coat for outing wear, and very attractive are these green

ways that the working side is, the wrong side of the finished lace, says the Modern Priscilla.

This dainty bonnet is made of lace and made of three pieces of net embroidered in a dainty scalloped effect, still the design comes stamped upon lawn, over which the net is based and the embroidery done through both materials. When completed the lawn is cut away from under and the embroidered design left upon the net. If desired a silk lining may be added.

FOR THE BABY.

Delicate Caps That May Be Fashioned From Lace Bands.

Lovely bonnets are made of lace bands joined with various fancy stitches. Two pretty babies are comfortably in this bonnet, and several stitches familiar to lace-makers have been used.

State the bands carefully on the canvas pattern, whip the edges into place and see that all joinings are neatly and securely made before making the fitting stitches. Remember al-

THE INVALID'S DINNER.

Let the Meals Be a Series of Delicious Surprises.

It is surprising what a dainty little dinner will do for an invalid. The dinner must be served attractively, not on a tray, but on trays, in courses—a dinner which will gain in zest and novelty by being a series of surprises, the invalid not knowing just what is coming next. Heat a bouillon over allowing hot water to stand in it while heating the soup from a small can, to which add a shake from the celery salt bottle. Toast one cracker in the oven. Take the smallest tray, covered with a pretty dolly, and place on it the toasted cracker, laid on a dainty bread and butter plate, a thin tumbler of water, and then all the vacant spaces with tiny bits of green vine or leaves from the house plants.

The best tray should be carried up to the invalid's room until the previous one is brought out. On it have a small plate containing what looks for all the world like a million of currants in water, or one of crabapples and on a hot plate, covered, a slice of sweet potato that has been baked in the pan with a little butter or a tiny ball of creamed white potato that has been browned in the oven and a spoonful of tomatoes that have been thoroughly cooked and seasoned with a bit of onion, southern parsley. It is really the likes of the invalid that need attention, and the prettiest sort of dinner can be served by the course system.

NEW NEEDLEWORK.

An Odd Use For the Much Used Irish Crochet.

Quite the newest use for Irish crochet is the picture frame, and while it cannot be imagined that faces framed with hard cold white are given the most softened and artistic effect, still the idea is fascinating. It is not to all holders, at least the needlewoman who is over on the alert for new turns for her deft fingers will welcome with delight the new path for her quickly moving needles.

These frames offer good opportunity for variation in edges and flower designs which may be worked out in colors.

In a boudoir where all else has a touch of Irish crochet these little frames will fit in admirably.

Punched work is enjoying the top-notch of popularity just now and is being used on every conceivable article in household or wardrobe to which needlework is applied. Centerpieces show a legion of ways in which to use this much liked work in combination with solid embroidery. Considerance exhibits some wonderful effects in punched work; collar and cuff sets are much enriched and elaborated with the same style, and for children's and infants' accessories it is decidedly the thing.

The Beach Costume.

A few yards of inexpensive cotton ball trimming have given this green linen frock much distinction, which is

increased by a collar of white plique and white cotton braid and a red leading up to it, to the state. A few rock is flanked by the old Sente Fe trail. It is fifty feet high, and the monument, which is a granite shaft of twenty-eight feet, surmounts the apex, being imbedded in the rock. The Day club was assisted in erecting the monument by the Daughters of the American Revolution, the Woman's Relief corps, the State Federation of Women's Clubs and the Women's Christian Temperance union.

The Extreme Suffragette.

Three Year Old—Mamma, I want some crackers and jam!

Mother—No, dearie; you can't have any more until Mrs. Pankhurst is out of jail.

Girl—Son—This motorcar of mine is a disgrace to the family. Guess I'll go out and look at some English trees.

Mother—English tweed! Horrors! Horrors! You wouldn't be so disloyal! There's only nine months to wait.

Girl—Daughter—Mother, I saw a duck of a hand bag downtown today. London make. I think I'll buy it to-morrow.

Mother—Oh, my daughter! How can you give us so to your personal satisfaction while that martyr is suffering!

Father—But, see here, Mrs. Suffragette, I was just dictating for a sweet set of dinner dishes for your best English make. Your birthday comes next week.

Mother—(whispering)—Oh, it is me for Christmas! I can't take it. May be she'll be out of jail by then for good behavior.

Prills of the Moment.

Even when girls giggle they say, "He-he!"

No woman makes a fool of a man. The process is always automatic.

Most of the men are ready to furnish the whip to be driven to drink.

Why is it that you never hear of men going for dinner dishes for your best English make. I think I'll buy it to-morrow.

Mother—Oh, my daughter! How can you give us so to your personal satisfaction while that martyr is suffering!

Father—But, see here, Mrs. Suffragette, I was just dictating for a sweet set of dinner dishes for your best English make. Your birthday comes next week.

Mother—(whispering)—Oh, it is me for Christmas! I can't take it. May be she'll be out of jail by then for good behavior.

W. J. BARLETT, Proprietor.

Frank, Alta., Fri., Jan. 10, 1913

Ten years ago Blairmore had a population of 50 grouped up in half a dozen log shacks, one or two of which are still standing souvenirs in the town.

Prospecting parties were beginning to unearth a coal seam, which in time became more and more developed until today it is found that the town is surrounded by and built upon one of the greatest coal beds on the American continent.

Five years ago the population of the town had increased to 400, mines were being developed with a monthly payroll of about \$7,000, negotiations were in progress for the formation of a company to utilize our vast limestone deposits, and today the fruits of such negotiations are evidenced in one of the finest cement manufacturing and lime kilns in Western Canada, producing a daily average of 1000 barrels of good Portland cement and several carloads of lime.

In 1909 about 100 dwelling and business houses comprised the town which today possesses about as many business houses and over four hundred neat and modern dwellings. The population has increased since 1909 from 400 to 2000, supported by industries paying out monthly upwards of \$38,000.

Besides several large solid-brick business blocks and modern hotels, Blairmore possesses a brewery, which for its size and equipment is second to no plant for the purpose in the west. The building has been erected at a total cost, including the machinery installed, of \$80,000, and owned entirely by the people of southern Alberta and the district.

After viewing many similar plants throughout the United States and Canada, the promoters were convinced that the opportunities afforded by the Metropolis of the Pass demanded none but the most modern plant and machinery, hence the machinery and equipment were selected with a view to satisfactory working coupled with economy. The plant is now complete and ready for the raw materials, and the wheels will very shortly be set going in a plant that is not only a credit to the town of Blairmore, but to Southern Alberta and the West.

As stated previously, the Keystone Cement Company has acquired valuable properties at the east end of the town, where they will erect a plant costing between \$700,000 and \$1,000,000. W. J. Budd, who is vice-president and managing director of the Company, is expected to arrive next week, to make some preliminary arrangements in connection with construction work, which will shortly commence. This new plant will add about \$25,000 a month to the payroll of the town and be an asset that can hardly be estimated, for the supply of raw materials suitable for the manufacture of cement and lime in the immediate locality could not be exhausted in a thousand years.

In the coming spring it is rumored the West Canadian Collieries Co. will open up some new seams of coal north of the town. Those seams are stated on good authority as being among the largest and best quality of the black diamond

croppings yet unearthed in the coal regions of Alberta, and the Company entertain great hopes for the future of the town backed up by their increased developments.

Other resources are continually attracting the attention of the financier and it is expected that the New Year will include in her volume of fortune the introduction of many vast labor-giving enterprises in the town of Blairmore.

Happenings in and Around Blairmore

J. W. Verge returned from his holidays on Saturday last.

C. F. and Mrs. Sedgwick were in town during the week.

Mrs. Kidd's maternity home, Box 95, Phone 151, Blairmore.

Ben MacDongall left last week on a visit to his home in Ontario.

The "Sherman" of Calgary play Coleman tonight.

There is talk of a Rebekah lodge being instituted in Blairmore this month.

Mr. and Mrs. R. M. Brisco, returned from Winnipeg Tuesday morning.

Mrs. A. S. Tod, of Fernie, spent a few days with friends in town this week.

League hockey game tonight (Friday) Blairmore versus Frank on the Blairmore rink.

Rev. T. M. Murray, of Coleman officiated at the Presbyterian church on Sunday night last.

The regular fortnightly session of the Blairmore town fathers will be held on Monday night next.

Frank's junior hockey team played at Coleman on Friday night and were trimmed to the tune of 10-2.

The temperature was 20 below zero in the sun on Sunday. We don't know anything about the shade—ask Coleman.

Frank plays Blairmore in the fifth game of the league season on the local ice on Friday night. A good game is expected.

The places of Misses Richardson and Perkins at the local school have been temporarily supplied by the Misses Williams.

The Crown's Nest Portland Cement Company has been incorporated with a capital of \$2,000,000. Head office is at Lethbridge.

We are pleased to report that Alex McLean, who last week was confined to his room with rheumatism, is able to be about again.

Owing to so many attractions on Friday night last, the entertainment given at the Central Baptist church was not largely attended.

Messrs. Miller & Berry, who are disposing of the stock of J. H. Goyer, Cowley, are putting on a sale of part of the stock at Beaver Mines.

Rev. T. M. Murray, of Coleman was down to Lethbridge on Thursday to attend Presbytery. Mr. Murray is moderator of the Macleod district.

F. W. Doubt went up to Coleman on Monday night, where as district deputy he installed the officers for the ensuing term in Coleman Lodge No. 36, I. O. O. F.

The Blairmore public school reopened on Monday, with the following staff of teachers: J. W. Verge, principal, Misses Fulton, Durrach, Muir, Williams and Williams.

Fernie is obliged to build an eight-room addition to their public school. Macleod is under a similar obligation, which speaks well for the growth of those western towns.

On Tuesday night next the ladies of the Presbyterian church will hold a concert at the Mission Hall. A good programme

has been arranged, in which the luncheon forms no small part. An admission fee of 25 cents will be charged and the concert will commence at 8 o'clock p.m.

The Blairmore junior hockey team played Coleman juniors on the local ice Tuesday afternoon, and defeated the visitors in a score of 5 to 2. The boys of both sides put up a real good and clear exhibition and will no doubt turn out as capable followers as successors of the present champions.

The officers of the Blairmore Lodge, No. 68, I. O. O. F., will be installed by District Deputy Doubt on Tuesday night next. The new officers will include R. C. Green, N. G.; Joseph Montalbetti, V. G.; A. Morency, R. S.; F. E. Hinds, F. S.; H. E. Lyon, Treasurer; J. F. Hunter, Chap.; A. H. Baker, Concl.

On Saturday night Blairmore will have the opportunity of witnessing a hockey game between the Sherman hockey team, of Calgary, and the Blairmore "Stars." The Shermans are without a doubt the strongest hockey combination in the province and will no doubt be given a warm reception in Blairmore.

The Presbytery of Macleod met at Lethbridge, in Knox Church, on Thursday of this week, to be presided over by Rev. W. H. Muncester, B. D. Among the many important matters to come up for consideration at this session will be a call to Rev. Mr. Muncester to the pastorate of First Presbyterian church, Blairmore.

After the service at the Presbyterian church on Sunday night the members and adherents of the church met the Rev. T. M. Murray and decided to extend a call to the Rev. W. H. Muncester, B. D., to take charge of the Presbyterian work in Blairmore. Such call will likely be considered at a meeting of Presbytery to be held this week at Macleod.

In order to ensure the best work of a volunteer fire brigade working from the proposed fire site on the West Canadian townsite, it has been recommended that beer canisters be attached to the hose reel and always kept filled. There will then be no necessity of stopping at 'Bo' Drains' for refreshments and relays will be found to give entire satisfaction.

The Raymond correspondent of the Lethbridge Herald states "It is reported in Raymond that Miss Davis, a former teacher in Raymond public school staff, is to be married. Miss Davis is now at the home of her uncle near St. Catherine, Ont."

Miss Davis, it will be remembered, also occupied a position on the staff of the Blairmore public school.

On Tuesday and Wednesday nights of this week the bill at the local opera house included the Broadus Mirel Co., a high-class company of colored musical, vocal and comic entertainers. One of their specialties was the work of Edward Lattrell, the only colored man in the world to successfully knock music out of a one-string, mop-stick violin. His efforts brought forth repeated applause.

The Acme Vandeville Co. filled a three-nights' engagement at the opera house during the week, and were well received. The work of "Dare," the flying trapeze man, "Humo," the frogman, "Major George," the lightning baton manipulator; "A. E. Tripp," comedian; "Harry Linton" the hoister boy, and Gordon and Gordon, contortionists, were indeed good exhibitions and a treat that should not have been missed by anybody. From beginning to end the programme was most interesting, the intermissions being filled in with high-class moving pictures. The Acme Vandeville Co. went to Hillcrest Tuesday, where they were greeted by a good audience at the Union Hall.

Cookery
Points

Dinner Cake.

Cream three-quarters of a cupful of butter with a pinch of salt and a half of brown sugar. Add two eggs and a cupful of sour cream in which half a teaspoonful of soda has been dissolved. Sift three cupfuls of flour with a teaspoonful of baking powder, two level teaspoonfuls of cinnamon, half a teaspoonful of cloves and half a teaspoonful of grated nutmeg. Stir the other mixture into these dry ingredients, and when a smooth batter has been formed mix with a paste previously prepared by melting a square of chocolate and then mixing it with a quarter of a cupful of light brown sugar and a quarter of a cupful of hot water. Cook this mixture till it is smooth before adding it to the batter. Just before putting the batter in the pan add a cupful of chopped nuts and fruit—almonds, raisins, citron and so forth, according to the richness desired. This cake may be used as a layer cake or in a shallow loaf form. It does not need a rich frosting, the batter being rich. Creamy sour milk may be used instead of sour cream, but it is better to add a little extra butter. The almonds should, of course, be blanched and cut in thin strips and the citron into thin shavings.

Mock Game.

Cut some slices of beefsteak into pieces half an inch thick and square. Lay a piece of raw bacon on each and dredge well with flour. Roll up the beef and slice it in sections. Heat some dripping in a stewpan, put in the meat and brown nicely, then add a finely chopped onion, half a teaspoonful of capers, and a little salt. Cover and stew all together very slowly till tender.

Place the meat on a hot dish. Strain

the gravy, thicken it with browned flour. Season with pepper and salt and a tablespoonful of red currant jelly. Pour the gravy over and around the meat and garnish with slices of toast and pieces of red currant jelly.

Angel's Food Cake.

Take the whites of two eggs, one cupful of flour, one and a half cupfuls of sugar and one teaspoonful of vanilla extract. Sift the sugar four times, with a teaspoonful of cream of tartar added also a pinch of salt. Beat the eggs until light and dry and add the sugar lightly, then the flour and vanilla. The secret of success is in the mixing and baking. Put together in the order given. Do not use a spoon or beat hard. Use the eggs with a wire egg beater and use the beater to mix the cake. Bake in ungreased angel cake pan for forty minutes to one hour. Let the cake cool in an inverted position before removing from the pan. The oven must be a moderate one.

Compote of Apples.

Large and rather tart apples are the best for this purpose. They should be pared and cored and cut into equal parts. Make a syrup with half a pound of lump sugar and a wineglassful of sherry and another of water. Bring it to boiling point.

Drop the apples into this and cook them till perfectly tender, but do not let them break. Lift them out on a plate as soon as done.

When all the apples are cooked boil the syrup a little longer to reduce it and deepen the color by the addition of a few drops of cochineal. Then pour over the apples and serve in a glass dish.

French Cucumber Salad.

Take four medium sized fresh cucumbers, half a cupful of sweet cream, a quarter of a cupful of vinegar and two tablespoonfuls of oil.

Peel the cucumbers and slice them lengthwise until the seeds are reached. Place a layer of cucumber slices in a dish, then sprinkle with a layer of salt. Repeat until all sliced cucumbers are used. Allow to stand several hours on the ice. When ready to use remove cucumbers from the liquid, spread on towel and wipe dry. Place in a bowl and add, alternately, cream and vinegar. Serve on bed of lettuce or cream.

Curry Soup.

Peel and slice the cucumbers and three onions. The onions should be sliced from the top to the bottom. Place them in a saucepan with two ounces of dripping and a tablespoonful of oil. Fry for about half an hour.

Stir occasionally. Pour in two quarts of milk or fish stock and cook for half an hour. Add enough flour to thicken the soup and boil for three minutes. Season with pepper, salt and a dash of lemon juice and serve with boiled rice.

Beetroot Sauce.

Wash and boil a couple of fair sized beets until the skins are tender, then remove the skins and cut them in slices. Dissolve half an ounce of butter, mix with a dessertspoonful of flour and stir in a large teaspoonful of thin stock or water, adding a little vinegar and pepper and salt.

Roll first, then lay in the slices and salt, roll, cover the slices closely and steam gently for an hour.

Pour carefully into a hot dish and serve at once.

TRAVELING SUITS.

Chinese Shantung a Satisfactory Material to Use.

It is not as easy to choose a costume for traveling in summer as in winter. Even with the freshest of linen at the start one is apt to be soiled and stained in a short while, and serge is too warm unless one is going instantly to a cool climate. Taffetas are not especially serviceable, and satin is hot, so one must choose with thought and after much looking around.

So far the genuine Chinese weave of shantung has proved most satisfactory for traveling. Its indefinite tan tones do not show soil easily, and those who have tried it out on trips of long duration have found that it was worth the money they put into it.

A slim, short skirt of this, with one of the new sack coats that have a slight fullness at the back of the waist line under a short belt, is a good model to select. The skirt should have a habit back or one side plait, but it should avoid the wide box plait or the loose panel. It is a good thing to remember just here that these additions should not be put on the back of a skirt when it is made of a fabric that easily wrinkles.

The skirt which buttons down the front should be high waisted, and the four inch hem should be stitched with one row of self colored silk at the top. The coat, in addition to its negligee back, should be open to the waist line, have wide revers and collar and long sleeves that are finished with two inch turnover cuffs held at the back with link buttons.

A JAPANESE ROOM.

Charming Ways of Using Souvenirs From Mikado's Land.

A collector of Japanese art and embroideries who found that she had amassed several very beautiful specimens of the mikado's land asked an expert how she should display them in which they were to play a prominent part.

"The room is practically furnished already," she said. "I have a few pieces of furniture you have in it the better you will be pleased with the result."

"Have black walls. What would be more beautiful as a background for the glorious splashes of blue water, the radiant sunsets and the prints covered with figures in monochrome which you have here?"

"Screens you must have in black wood frames, for some of your embroideries will make exquisite panels, and other pieces can be let into the wall, so that you may sit near them and admire the perfection of design and coloring you have secured."

"I would have a black carpet so that no alien color scheme may creep into your room, and, besides that, you yourself will radiate color, for you will have some of the silks you have brought home into your room and will wear them always in this particular apartment. Any other type of toilet would look banal in it."

"Let there be unobtrusive chairs, divan, table, and what tea is served use the Japanese china you have among your treasures."

Cleaning Windows.

For cleaning windows use ammonia in the proportion of one tablespoonful to one gallon of water or one quart of water with cold water to a paste about as thick as cream. But the work can be performed by using clean water and two chunks leathers, one for washing the glass and the other for polishing. The latter should be kept dry and soft. See that the wash leathers are quite clean and dry and make the glass so wet that the water drips from it. Have plenty of clean water and change it frequently. Dip the channels in this and rub the putty, taking care that the corners are not forgotten. Wring the cloth tightly and go over the surface of the glass a second time. Then polish with the other wash leather.

Summer Belongings of Cretonne.

A collapsible camp basket, a fling basket and a writing paper box, all made of pasteboard, covered with cool

coats with white skirts of linen or serge and white foot cover. The outfit skit pictured is of white mullin and is short enough to reveal trim buttoned boots of anyorski.

Three Rules to Follow.

In general there are three rules the housekeeper may use in changing her menus from winter to summer.

First—Make the diet more largely of green vegetables. Reduce the amount of meat.

Second—Do less cooking. Substitute green uncooked vegetables and fresh fruits for cooked ones. Serve fruits and cold desserts more.

Third—Make the diet more simple. This can be done without losing enthusiasm for "good things to eat," because there will be less work in the preparation of foods selected. Surely this privilege should be allowed in hot weather.

Flavored With Ginger.

A delicious white cake has the layers spread between with whipped cream flavored with Canton ginger and fine thin slices, the icing being flavored in the same way. A little of the sirup in the ginger jar may be used in the icing in connection with the dried ginger, and if a very pronounced flavor is desired slices of ginger may be stirred through the cake. A delicious dessert may be made by lining paper cases with this cake and filling the cup, formed with whipped cream flavored with ginger. Decorate the top with a piece of sugar.

LIBRARY FITTINGS OF CRETONE.

Green and white cretonne, are pictured here.

They offer an agreeable change from heavier brass and wood articles used during the winter season.

A Dainty Collar.

To wear with colored linen dresses a sailor collar of sheerest silk is most effective.

It requires a half yard of material. After cutting the collar out finish the edge with an inch wide frill of fluff plaited net.

Cuffs to match may be made with rounded or square corners and edged with the plaited net.

If a touch of color is desired a row of featherstitching where the net is joined to the collar supplies it.

CAMP COMFORTS.

Life in the Open Shows of Its Hardships.

Camping as a summer recreation has grown rapidly in popularity during the last few years and promises to enjoy greater favor this season than ever before. The reason is not far to seek. The material difficulties of camp life are being steadily eliminated, and life in the open has been shown of most of its hardships.

Among the new devices for camp cooking are small aluminum bakers, saucepans and frying pans with handles to be removed for packing. Small stainless steel cookers are made especially for campers and are particularly useful when on all day trips for fishing and hunting form part of the program, for on their return the hunters and a hot dinner ready for them.

Nests of cooking dishes are a trifle expensive, but well worth the outlay, as they can be packed in a minimum of space. Vacuum bottles are now much less expensive than they used to be and are invaluable to the camper. Water in collapsible canisters, and of course there are plates and cups of paper, so inexpensive that they can be thrown away after using.

A small camping party has provided itself with paper towels at a cost of 20 cents for 150 and calculates that they will save some bother about laundry work. Books of soap leaves are another suggestion.

In the matter of food for the camper, the modern camper has been equally busy. There is a certain fascination about making coffee over a campfire, but the novelty soon wears off, and it is most convenient to be able to have a cup of coffee with only the trouble of boiling the water, powdered coffee doing the rest. A small round tin of the powder costs only 25 cents and will serve about thirty persons. Most campers try to arrange to get fresh milk from a nearby farm, but even if this is not possible, condensed milk is available.

Hunters and fishermen seek the prizes of "hot sauce," a fine powder from which a tempting sauce can be made merely by adding water. It can be bought in all stores that handle sporting goods and probably also in large grocery stores.

Mackinaw the Thing.

The bright green cloth Norfolk coat, called popularly the mackinaw, is the sunny summer coat for outing wear, and very attractive are these green

ways that the working side is the wrong side of the finished lace, says the Modern Priscilla.

This dainty bonnet is melon shaped and made of three pieces of net embroidered in a dainty wall-to-wall design and joined with lace insertion. The design comes stamped upon lawn, which when the net is teased and the embroidery done through both materials. When completed the lawn is cut away from under and the embroidered design left upon the net. If desired a silk lining may be added.

FOR THE BABY.

Dainty Caps That May Be Fashioned From Lace Brail.

Lovely bonnets are made of lace brail joined with various fancy stitches. Two pretty brails are combined in this bonnet, and several stitches familiar to lacemakers have been used.

Beats the brails carefully on the cambric pattern, whip the edges into place and see that all joinings are neatly made and brushed down making the dainty stitches. Remember all-

Let the Maudie Be a Series of Delicious Surprises.

It is surprising what a dainty little dinner will do for an invalid. The dinner must be served attractively, not on a tray, but on a table, in contrast—a dinner which will gain in zest and novelty by being a series of surprises, the invalid not knowing just what is coming next. Heat a bouillon cup by allowing hot water to stand in it while heating the soup from a small can, to which add a shake from the celery salt bottle. Toast one cracker in the oven. Take the smallest tray, covered with a pretty dolly, and place on it the toasted cracker, laid on a dainty bread and butter plate, a thin tumbler of water, and then fill the vacant spaces with tiny bits of green vine or leaves from the house plants.

The next tray should be carried up and set outside the invalid's room until the previous one is brought out. On it have a small plate containing what looks for all the world like a lilliputian turkey, beautifully browned, stuffed and garnished with parsley, but which is in reality a plump partridge or a quail. Have a small cup of currant jelly with tartly bits of cranberries and on a hot plate, covered, a slice of sweet potato that has been baked in the pan with a little butter and a bit of cream.

white potato that has been browned in the oven and a spoonful of tomatoes that have been thoroughly cooked and seasoned with a bit of onion southern fashion. It is really the likes of the invalid that need attention, and the prettiest sort of dinner can be served by the course system.

THE INVALID'S DINNER.

Let the Maudie Be a Series of Delicious Surprises.

It is surprising what a dainty little dinner will do for an invalid. The dinner must be served attractively, not on a tray, but on a table, in contrast—a dinner which will gain in zest and novelty by being a series of surprises, the invalid not knowing just what is coming next. Heat a bouillon cup by allowing hot water to stand in it while heating the soup from a small can, to which add a shake from the celery salt bottle. Toast one cracker in the oven. Take the smallest tray, covered with a pretty dolly, and place on it the toasted cracker, laid on a dainty bread and butter plate, a thin tumbler of water, and then fill the vacant spaces with tiny bits of green vine or leaves from the house plants.

The next tray should be carried up and set outside the invalid's room until the previous one is brought out. On it have a small plate containing what looks for all the world like a lilliputian turkey, beautifully browned, stuffed and garnished with parsley, but which is in reality a plump partridge or a quail. Have a small cup of currant jelly with tartly bits of cranberries and on a hot plate, covered, a slice of sweet potato that has been baked in the pan with a little butter and a bit of cream.

white potato that has been browned in the oven and a spoonful of tomatoes that have been thoroughly cooked and seasoned with a bit of onion southern fashion. It is really the likes of the invalid that need attention, and the prettiest sort of dinner can be served by the course system.

NEW NEEDLEWORK.

An Old Use For The Much Used Irish Crochet.

Quite the newest use for Irish crochet is the picture frame, and while it cannot be imagined that faces framed with hard cold white are given the most softened and artistic effect, still the idea is fascinating. If not to all beholders, at least the needlewoman who ever on the alert for new uses for her deft fingers will welcome with delight the new path for her quickly moving needles.

These frames offer good opportunity for variation in edges and flower decorations which may be worked out in colors.

In a bonnet where all else has been in Irish crochet these little frames will fit in admirably.

Framed work is enjoying the top notch of popularity just now and is being used on every conceivable article in household or wardrobe to which needlework is applied. Contemporary show legions of ways in which to use this much liked work in combination with wild embroidery. Considerable exhibit of some wonderful effects in punched work; collar and cuff sets much enriched and elaborated with the same style, and for children's and infants' accessories it is decidedly the thing.

The Beach Costume.

A few yards of laceless cotton knit trimming have given this green linen rock much distinction, which is

What Women Are Doing.

Mrs. Mary M. Hildner is in charge of one of the most unusual libraries in the world. This library is in a small building on Mount Vernon street, Boston, and the books are lent to clergywomen exclusively. The library is entirely religious and theological. The books are sent to any minister in any hamlet or city in any of the six New England states. Of the 7,000 ministers in New England more than 2,000 are regular patrons of the library.

The books appeal to all denominations. During the past year the Congregational and the Methodist borrowed more than 300 and the Episcopalian more than 200. Two Lutherans take the books continuously, three Adventists and twelve Friends. Books on social questions are said to be by far the most in demand among ministers; next come biographies, with works on pure theology near the bottom of a fairly long list.

Mrs. Scott Hopkins is the president of the Woman's Kansas Day club, through whose leadership a monument to the pioneers of the Santa Fe trail has just been erected at Great Bend, Kan. At their annual meeting in 1908 the members of the Day club decided to acquire a piece of rock as a site for the proposed monument. The members presented the rock, with five acres of land about it and a road leading up to it, to the state. A fence rock is flanked by the old Santa Fe trail. It is fifty feet high, and the top is a granite in a granite on shaft of twenty-eight feet, surrounds the apex, being imbedded in the rock. The Day club was assisted in erecting this monument by the Daughters of the American Revolution, the Woman's Relief corps, the State Federation of Women's Clubs and the Western Christian Temperance union.

The Extreme Suffragette.

Three Year Old—Mamma, I want

Mother—No, dearie; you can't have any more until Mrs. Pankhurst is out of jail.

Green Son—This motorcar of mine is a disgrace to the family. Guess I'll go out and look at some English tweeds.

English—English tweeds? Harrold, Harrold! You wouldn't be so disloyal. There's only one mouth to wash.

Town Daughter—Mother, I saw a duck of a hand bag downtown today—London make. I think I'll buy it tomorrow.

Mother—Oh, my daughter! How can you give in to no your personal vanity while that martyr is suffering?

Father—But, see here, Mrs. Suffragette, I was just clearing for a swell set of dinner dishes for you—best English make. Your birthday comes next week.

Mother (mildly)—Give it to me for Christmas! I can't let it now. May be she'll be out of jail by then for good behavior.

Frills of the Moment.

When when girls giggle they say, "He

Bel—

No woman makes a fool of a man. The proven is always automatic.

Most of the men are ready to furnish the ship to be driven to the drink.

Way is it that you never lose of meaning for breath of promise?

She wants him to be a hero, but to take no chances of getting hurt.

If she could select his clothes he would always make the carpet in the sitting room.

It is not an extraordinary remark man who will not admit that his wife can sweep better than he.

Fortune is a woman, but she is not so far as we can reach, made correspondent in a divorce suit.

A wise girl is sometimes pleased to suffer, but she is never bewildered by it.

Finger Tip.

Don't cut the cuticle or any part of the flesh around the nails.

Don't polish the nails too highly. They should have only a natural gloss.

Don't file the nails to points, but carefully cut them.

Don't allow the nails to remain long, with anything just will stain them.

FROCK OF GREEN LINES.

Increased by a collar of white plique and white cotton lace, a modern toilet

skirt buttoned boots complete a dainty morning beach costume.

To Improve the Neck.

An excellent exercise for expanding the chest and filling out the hollows of the neck and shoulders is to rise upon the tips of the toes at the moment of inhalation and hold the breath, throwing it forcibly against the muscles of the neck and chest, while you can count fifteen; then exhale forcibly and come down upon the heels. Repeat these times night and morning when there are no constraining bands about the body.

To Test the Heat of an Oven.

Place a piece of white paper in the oven. If it burns immediately it is too hot for anything. If it turns a delicate brown it indicates perfect heat.

For cake it should turn dark yellow. Light yellow shows the proper heat for biscuits and sponge cake.

For meats the oven may be hot at first. This keeps the juices in the meat.

Woman's World

Mrs. Blaney Delegates to Republican National Convention.

MRS. CHARLES D. BLANEY.

"As a result of the recent 'votes for women' victory in California, Mrs. Charles D. Blaney has been chosen as one of the four women delegates to the Republican national convention. Her home is in San Diego, Santa Clara county.

Happenings in and Around Bellevue

Matt Latoin is around again
after a severe attack of typhoid.

Mr. McIntyre, of Calgary, is in
town on real estate business.

Malcolm Link was in Bellevue
on Saturday. He may locate
here.

John Christie spent New Year's
with his friend George Noble at
Ferne.

The Bellevue orchestra had two
out-of-town engagements last
week.

BORN:—to Mr. and Mrs. Sam
Shone on Thursday, January 2nd,
a daughter.

Mr. Merrick, of Frank, has ac-
quired a position as mechanic at
the Bellevue mine.

The members of the local union
held a smoker in the Socialist
Hall on New Year's night.

Mrs. Wilfred Walstenholme and
Mrs. Steve Humble were hair-
more visitors on Friday last.

George Zawada met with an ac-
cident in the mine on Saturday,
which resulted in a broken finger.

Billy Newton, the local boxer,
entered the Bellevue hospital on
Tuesday to undergo an operation
for rupture.

Persons troubled with partial
paralysis are often very much be-
sided by massaging the affected parts
thoroughly when applying Chamber-
lain's Liniment. This liniment also
relieves rheumatic pains. For sale by
all dealers.

J. R. Knight, the Socialist, who
recently contested the by-election
for a seat in the provincial house
at Edmonton, will deliver a lec-
ture in the Socialist hall, Bellevue,
on Sunday afternoon at 2.30.

The Scotchmen of Bellevue are
intending to keep up the custom
of celebrating the birthday of the
immortal Bobby Burns on Janu-
ary 25th. A concert and dance
will be held in the Scotch hall on
the evening of that date.

Fredrick Beale, the local wrest-
ler, is matched to wrestle with
Tommy Smith, of Hillcrest, in
Bellevue on the night of January
15th. This should prove a match
of exceptional interest, as both
men are of about equal weight.

Somebody slept in Bellevue on
the night that it marked the advent
of the new year. Everybody was
entertaining visitors in real old
"bug-me-tay" fashion, and best
wishes for a happy and prosper-
ous New Year were extended by
all hands.

Joseph Virden, late mechanic of
Frank, has taken over that position
in Bellevue. Mr. Virden held the
same position here previous to the
explosion and we are pleased to
welcome the family back to
Bellevue.

An exciting runaway occurred
in Bellevue on Monday afternoon,
when the team belonging to a
Blairmore firm bolted and did a
few acrobatic stunts around Bel-
levue hotel that would do credit to
a circus. They finally struck the
holy ground of the Methodist
church and could go no further.
There was no serious damage done
but all sorts of hair breadth
escapes.

Joshua Atkinson met with an
accident in the mine about 11
o'clock on Saturday night, which
nearly cost him his life. He was
working in one of the chutes when
a fall of rock from the roof com-
pletely buried him. He was only
saved by the alertness of his part-
ner, C. H. Carrington, and others
in extricating him. He was re-
moved to his house instantly
where an examination made by
Dr. Mackenzie revealed no more
serious damage than some severe
bruises. He will be laid up for
some time.

Frank Notes

Rev. W. T. Young returned
from Edmonton on Friday last.

Miss McCallum returned to town
from her holidays on Saturday
last.

The Frank school re-opened on
Monday with the same staff as
1912. Mr. Mackay, principal, and
Misses Berry and McCallum.

When you want a reliable medicine
for a cough or cold take Chamber-
lain's Cough Remedy. It can always
be depended upon and is pleasant
and safe to take. For sale by all
dealers.

The Coleman hockey team failed
to turn up for the league game on
Monday night. In consequence the
committee will have to con-
sider as to whether the night was
really too stormy for Coleman to
journey to Frank, or whether Col-
man should lose by default.

If your children are subject to
attacks of croup, watch for the first
symptom, hoarseness. Give Cham-
berlain's Cough Remedy as soon as
the child becomes hoarse and the at-
tack may be ward off. For sale
by all dealers.

NOTICE

To Creditors and Claimants

NOTICE is hereby given that all per-
sons having claims against the estate
of the late Charles Anderson Dana
McNeill, who died on or about the 11th
day of February 1908, are required to
send to JENKINSON & CRAIG, Solicitors
for Francis F. McNeill, Administratrix,
at Calgary, on or before the 31st day
of January 1913, a full statement of their
claims and of any securities held by
them, duly verified, and that after the
date said Administratrix will proceed
to distribute the assets of the
deceased among the persons entitled
thereto, having regard only to the claims
of which notice has been filed with the
said Solicitors.

DATED this 8th day of January A. D.

Approved
(sgd) J. L. CRAWFORD
Judge.

The report of a fire at Maple Leaf
on Wednesday night caused con-
siderable anxiety around town.
First reports stated that the whole
of the town was endangered and
quite a number of noted "fire-fight-
ers," including D. C. Drain, drove
out to the scene of conflagration,
only to find that a small unoc-
cupied shack had smouldered to
ashes.

Here is a remedy that will cure
your cold. Why waste time and
money experimenting when you can
get a preparation that has won a
world wide reputation by its cures of
this disease and can always be
depended upon? It is known every-
where as Chamberlain's Cough
Remedy, and is a medicine of real
merit. For sale by all dealers.

Happenings in and Around Burnis

James Duggan has just returned
from a business trip to Spokane.

Joe is reported to be paying at-
tentions to the prospective bride's
sister. Joe is good looking, too.

E. T. Fitzsimmons left Burnis
last week, and James Duggan im-
mediately moved into the house
thus unoccupied.

Cy Chester has returned with
his blushing bride. He is stated
to have grown a full inch and is
already more portly.

Mr. Knight, a Socialist orator,
was in town telling the boys how
to get rich on three-hour-a-day
work. Wow, wow!!!

Bert Foster, a popular store-
keeper, who has been keeping
things in order while Mr. Chester
was indulging in honeymoon
bliss, has left town for the beau-
tiful city of Homer, where he in-
tends to stay for a time.

L. C. Stevens was a visitor in
Calgary, and returns to tell us
that as usual the real estate man
is much to the fore. Taber and
Medicine Hat, with a touch of Al-
berni thrown in, are the chief
places on the map for investors.
He even says that he visited an
office where Taber occupied a lar-
ger area on the map than Calgary,
which is sure going some.

The annual meeting for the
Burnis school district was held on
Saturday last and a good attend-
ance was in evidence. The meet-
ing was conducted in accordance
with directions set out in the Act,
and the chairman, J. L. Parker,
upon being questioned, explained
very clearly what "spai facty"
meant. (I forgot what it was).
The election of trustees was done
by acclamation and the following
gentlemen were elected for the 3, 2,
and 1 year terms respectively:
J. L. Parker, H. E. Riddle and L.
C. Stevens. After the general
meeting, a meeting of trustees was
held, at which W. A. Brown, was
again appointed secretary-treas-
urer. Mr. Tonks, the school mat-
ter, was asked to continue his
duties. The question of adven-
tures was gone into and arrange-
ments made for immediately trans-
ferring the holding of the school
from the church to the new school
house. One thing appears certain
and that is, the new luncheon go-
ing to even things up consider-
ably.

The president of the order of
Guzzuks drew attention at the
weekly meeting to the "persecu-
tion" by the Hillcrest correspond-
ent, as indicative of the rise in
civilization. He also pointed out
that some Hillcrest visitors to Cal-
gary stated that Calgary has
burned a block, but further
edification at the hands of their
correspondent will cure such
notions. The success of Burnis
is assured, as everybody knows.
We have the goods, the location
and also the indomitable business
push so "requisite and necessary,"
as the person told us. It is not
Burnis that troubles us so much,
as the C. P. B. Agent and the
accessibility of the station. The
e is no two ways about it, the sta-
tion is as hard to approach as the
agent, Saunders, etc., etc., throw
an icy mantle around things in
that direction which is difficult to
pierce. However, the spring will
soon be with us, and when every-
body is drinking "Beck" all will
be well.

A letter was read by the secre-
tary, asking for assistance in the
settling of the Blairmore troubles.
He was instructed to reply to
the effect that Canada was doing
the best possible to drain the
population of the Balkans

and that after a few years it
might be that our surplus Eng-
lish and Canadian stock would
emigrate to Servia, Bulgaria, etc.,
in which case things would soon
be "fixed right."

Secretary asked to enquire re-
the system adopted by the Empire
Hotel at Macleod, whereby it
works in such a way that north-
bound travellers pay \$1.25 for a
bed and on return pay 75 cents
for the same accommodation in
the same room.

The question re the comple-
tion of the Guzzuk skating rink
was brought up. It was asked
whether Hillcrest had anything
to do with the awarding of the
contract. He was asked that
Beaver & Co. would have every-
thing ready before the next meet-
ing and that Hillcrest had nothing
to do with the question.

Bellevue (we are always more
partial if the name of the place
begins with a "B") strikes me as
being rather likely to be confused
with "Bump" hotels, real estate
and otherwise. We are greeted
with notice. "It has nothing
invest in this bunch of public
that expense of timberland to
reach a net \$10 down and \$10 a
month. You won't miss the money.
When you are through the hall of
living in a place like Bellevue
won't trouble you." Where does
Bellevue come in? Bellevue with
its opportunities, the place
where the money is being made
and the home of the "Secret
champs." That it is situated be-
tween Hillcrest and the Frank
slide as a rose between two thorns
only enhances its value, why make
real estate men feel as if they
chance of getting stung. That
real estate agents may be and
often are honest there is no doubt,
as we have a good Guzzuk who is
honest as a lawyer; but let them
peddle—with more discretion.
Brother Guzzuks, the lesson is that
when you travel and see all the
various inducements to get away,
remember the can you live in. If
you have to invest, don't be mis-
led into sending it too far from
home, and if the desire is over-
powering, as a last resort land it
over to me.

This meeting being held in the
forenoon the members adjourned
to inspect the football ground
with a view to cutting down the
size to conform to other grounds
in the Pass. The flag pole was
found to be standing and it was
decided to strengthen the cross
bar of the goal posts, occasioned
by the terrific shot in a two
weeks ago by a few of our players.

THEY NEVER KNOW A DULL MOMENT

No matter when or where you go—over
frozen ground, ice, slush or snow, you'll
get there and back without worry to you
or your horses if they are sharp-shod
with

ROWE RING-POINT CALKS

None so sharp at first, none stay sharp
to the last, and last so long. It's the
steel blade that makes a good knife.
It's the FULL LENGTH TOOL, STEEL
CENTER that makes Ring-Point Calks.
You can use detachable calks with a
cork or plastic. When the wire drops
out, the calk wears out, and you're
out of the point. The steel center of
Ring-Point Calks stays in till worn out.
It's welded to the shell. It cannot be
loose. It cannot work down, because it's held
by the weld. Ring-Point Calks cost
less because they save most. You pay
less for them. Don't use old-time bar calks.
Don't use center-drop-out wire filled
calks. Get your money's worth by
using Ring-Point—these are the ones that
never know a dull moment. See me about
them today.
